PROFESSIONAL SUMMARY

IT professional with 2+ years of experience in automation testing, Jenkins automation, virtualization, and system qualification. Skilled in Python, SQL, CI/CD, QA automation, and VM infrastructure. Completed an M.S. in Information Technology with a concentration in Artificial Intelligence and seeking full-time roles in QA Automation, Python, DevOps, or AI-related fields.

TECHNICAL SKILLS

Languages: Python, SQL, Shell Scripting, HTML

Testing & QA: Automation Testing, Regression Testing, Functional Testing, QA, Jenkins, System Qualification (VEN OS, PCE OS)

DevOps & Infrastructure: CI/CD, vSphere, Ubuntu, VM Management, Virtualization, Network Troubleshooting

Tools: Jira, Confluence, Git, GitHub, Postman, Kibana, VS Code

AI/ML: OpenAI API, NLP

Databases: MySQL, SQL Server

PROFESSIONAL EXPERIENCE

DEVELOPMENT ENGINEER – CALSOFT

Bangalore, India - PROJECT ILLUMIO / Jun 2022 - May 2024

- Developed and executed Jenkins-based automation test suites for RBAC, SAML, Kerberos, and HA modules.
- Configured and managed vSphere virtual machines to support scalable testing environments.
- Performed regression, functional, and non-functional testing to improve software quality and reliability.
- Analyzed Kibana logs and maintained Confluence documentation for troubleshooting and system qualification.

NETWORKING INTERN – CALSOFT

Bangalore, India / Jan 2022 - May 2022

- Configured and monitored network switches, routers, and Ubuntu virtual environments.
- Assisted in troubleshooting connectivity issues and maintaining technical documentation.

PROJECTS

Game Pal - AI Gaming Assistant Chatbot

Python, OpenAI API, NLP, Flask | Jan 2025 - May 2025

- Developed an AI-powered chatbot using Python and OpenAI API to provide real-time gaming guidance.
- Implemented NLP techniques to improve user query understanding.
- Built a Flask-based interface for user interaction.

Gamer Hub - Centralized Game Management System

MySQL, SQL Server, Data Modeling | Feb 2025 - Apr 2025

- Collaborated with a 3-member team to design and develop a centralized backend system for managing gaming data.
- Designed normalized database schemas and ER diagrams for user management, game tracking, and analytics.
- Wrote advanced SQL queries for leaderboard generation, data retrieval, and performance analytics.
- Improved database efficiency and ensured data integrity through optimization techniques.

Smart Home Automation System - Major Project (Undergraduate)

Python, Arduino UNO, IoT | Dec 2021 - Apr 2022

- Developed a Python-based IoT home automation system using Arduino UNO and sensors.
- Led a 4-member team in development, testing, and hardware integration.

EDUCATION

SOUTHERN NEW HAMPSHIRE UNIVERSITY - Manchester, NH

Master of Science in Information Technology | **Concentration:** Artificial Intelligence

Apr 2026 | GPA: 3.83

ADITYA COLLEGE OF ENGINEERING - Andhra Pradesh, India

Bachelor of Technology in Computer Science & Engineering - May 2022 | GPA: 3.6

CERTIFICATIONS

Python for Everybody Specialization - Coursera | University of Michigan
